IGCSE Paper 2

Identify and explain how the following two stakeholder groups might be affected by SA's plans to expand.

Shareholders *The cost of expansion is \$15m and they might be asked to provide share capital. This could reduce the market price of their shares in the soap company as it will take time for the new investment to lead to higher profits and possibly higher dividends.*

Local Community *May benefit as 50 more production workers will be employed which will reduce community unemployment. This will mean there will be more money from the workers wages going into the local economy and local businesses will have more demand and higher profits too.*

Soap Additions (SA)

SA is a public limited company. It was started 20 years ago in country Z. SA manufactures soap that is sold to the mass market. The soap is produced in a factory employing 100 production workers. The Operations manager thinks that well-motivated employees are important.

SA soap is sold for a low price to wholesalers and retailers throughout country Z. The product is sold and packaged either as bars of soap or liquid soap in a bottle. SA has a 50% share of the total market for low price soap.

The directors of SA want to expand the business by starting to produce different types of soap aimed at niche markets. The products they want to develop are:

- Luxury soap aimed at high income consumers
- Soaps aimed at improving ageing skin
- Medicated soap to help improve bad skin often experienced by teenagers

The manufacturing process for the mass produced soap is automated and uses flow production. However, if the new soaps are produced then they will be manufactured in a new factory using batch production. The new factory and equipment will cost \$15m and will require 50 more production workers and a new Operations manager.

SA does not use lean production in its existing factory. However, the Managing Director thinks SA would benefit from the introduction of lean production into both the existing and new factory.

Some of SA's managers think they are never involved when important decisions are made. The directors of SA disagree about which leadership style will lead to the best decisions being taken.

Appendix 1

Total soap sales in country Z of \$200m in 2018

Appendix 2

Newspaper article in Daily News - 15 April 2019

Economic growth in country Z is increasing and is now at 8% per year. Average wage rates are increasing. Many people now work in cities rather than on farms in rural areas.

Multinational companies sell products in country Z as well as setting up factories here. Increased globalisation has encouraged the government of country Z to sign a trade agreement with other countries. It is meant to encourage increased trade between these countries and further economic development of country Z. However, not all businesses in country Z are pleased with this trade agreement.

Appendix 3

Financial information from SA's balance sheets for 2017–2018

	2017	2018
Non-current assets (\$m)	40	40
Inventories (\$m)	5	10
Trade receivables (\$m)	4	4
Cash (\$m)	1	1
Current liabilities (\$m)	5	5
Bank loan (\$m)	10	20
Current ratio	2:1	?
Acid test ratio	1:1	?
